

Recommendation Letter

Date: 15/09/2024

To Whom It May Concern,

I am honored to recommend **Omran Mohamad Alksour**, who excels as a **Full Stack .NET & React Software Engineer at KenSoftware**. Omran consistently demonstrates exceptional technical expertise, adaptability, and dedication, making him an invaluable team member.

Omran is proficient in developing and optimizing sophisticated applications using .NET and React technologies. His excellent problem-solving skills, attention to detail, and ability to quickly master and apply new technologies have consistently ensured the delivery of high-quality, scalable solutions and the success of various projects.

Omran's key strengths include:

- **Adaptability:** Quickly grasps and applies new technologies.
- **Commitment:** Consistently meets deadlines and exceeds expectations.
- **Innovative Problem-solving:** Brings innovative and effective solutions to complex challenges.
- **Communication:** Works effectively with both technical and non-technical teams.
- **Attention to detail:** Delivers high-quality, maintainable work.

Omran is also a proactive team player, contributing positively to the work environment. He is always ready to assist colleagues, mentor less experienced developers, and enhance team performance through his commitment to continuous improvement.

I am confident that Omran will continue to excel in any future academic or professional opportunity he pursues. His exceptional skills and strong work ethic make him an outstanding candidate for any program or position. For further information, please feel free to contact me at [khaled.riyal@kensoftware.com].

Sincerely,

Khaled Riyal
CEO
